REQUEST FOR CORRECTION OF FILING RECEIPT

Dear Sir:

In the Filing Receipt for the above-referenced patent application filed on May 17, 2000, the title was recorded incorrectly as follows:

METHOD APPARATUS FOR ACCESSING A COMPUTER BEHIND A FIREWALL

The correct title is as follows:

METHOD AND APPARATUS FOR ACCESSING A COMPUTER BEHIND A
FIREWALL

Please have the Filing Receipt changed to reflect the correct filing date. Enclosed is a copy of the incorrect Filing Receipt with the change noted thereon and a copy of the cover page and page 2 of the patent application-both displaying the correct title.

FIRST CLASS CERTIFICATE OF MAILING (37 C.F.R. § 1.8(a))

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail with sufficient postage in an envelope addressed to the Assistant Commissioner for Patents, Washington, D.C. 20231 on: January 10, 2001

Date of Deposit

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the PTO processes the reply to the Notice, the PTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

A METHOD AND APPARATUS FOR ACCESSING A COMPUTER BEHIND A FIREWALL

FIELD OF THE INVENTION

5 The present invention relates to the field of remote access of computers;
more particularly, the present invention relates to accessing a computer behind a
firewall using a remotely located browser.

BACKGROUND OF THE INVENTION

10 Today, people may access networks and other computer systems from
remote locations. Currently available remote access techniques allow users to
access their home computer while they are at work or some other remote
location. A problem may exist, however, when an individual tries to access a
computer within an internal company network such as a local area network
15 (LAN) or an Intranet. For instance, travelling professionals may need to access a
file or an application located on their work computer to prepare for a meeting
held miles away from their office, or an employee working from home may be in
need of certain information stored on his or her computer at work.

 Some existing software products provide remote access capability to users
20 wishing to access an internal network computer if all computers within the
internal network have public Internet addresses allocated by an Internet Service
